

September 25, 2015

Dear Nolan Creek Stakeholder:

The Texas Commission on Environmental Quality (TCEQ), Texas Institute for Applied Environmental Research (TIAER) and City of Killeen cordially invite you to a Nolan Creek Watershed Partnership meeting. This meeting will be held on **October 8, 2015** from **6:00pm – 8:00pm**, at the **City of Killeen's Transportation Services Building (Transportation Training Room 3201)** located at **3201 WS Young Drive in Killeen, TX 76541**.

At the meeting, you will have the opportunity to hear updates on water quality monitoring along the creek, particularly with regard to bacteria levels. Additionally, an update on potential sources will be presented and steps on moving towards watershed protection planning for Nolan Creek/South Nolan Creek.

Because decisions concerning the water quality of Nolan Creek/South Nolan Creek affect all landowners, citizens, industries, and municipalities within the watershed, your participation is important. Local stakeholders are key to improving water quality.

If you have any questions, please contact me at mcfarla@tiaer.tarleton.edu or 254-968-9581. I look forward to seeing you on **October 8th at 6:00 p.m.**

A map to the meeting place is printed on the back of this invitation and an agenda is enclosed. Further information about the project can be accessed at <http://www.killeentexas.gov/nolancreekwatershed>.

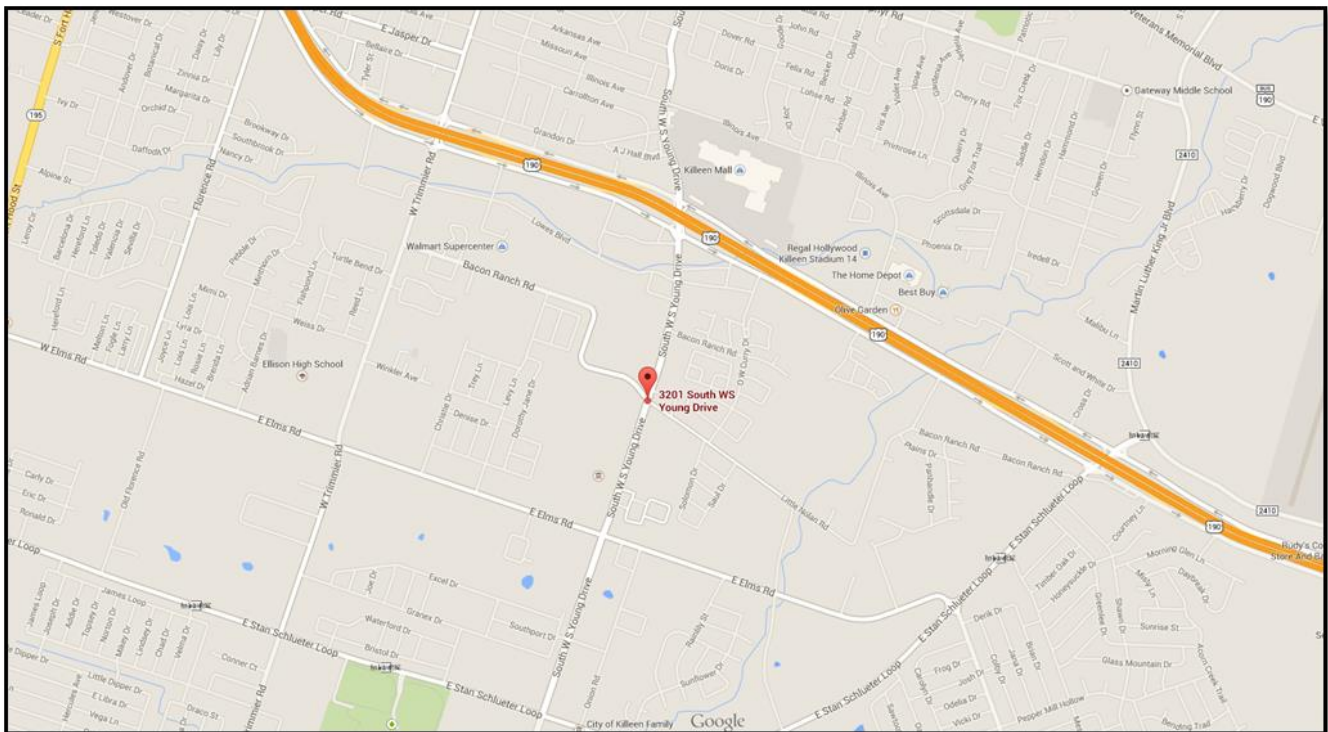

Sincerely,

Anne McFarland
Project Manager for the Nolan Creek/South Nolan Creek Watershed Project
TIAER at Tarleton State University

Enclosure: 1
